# Ocean freight

› **We have seen it all. We have done it all.**

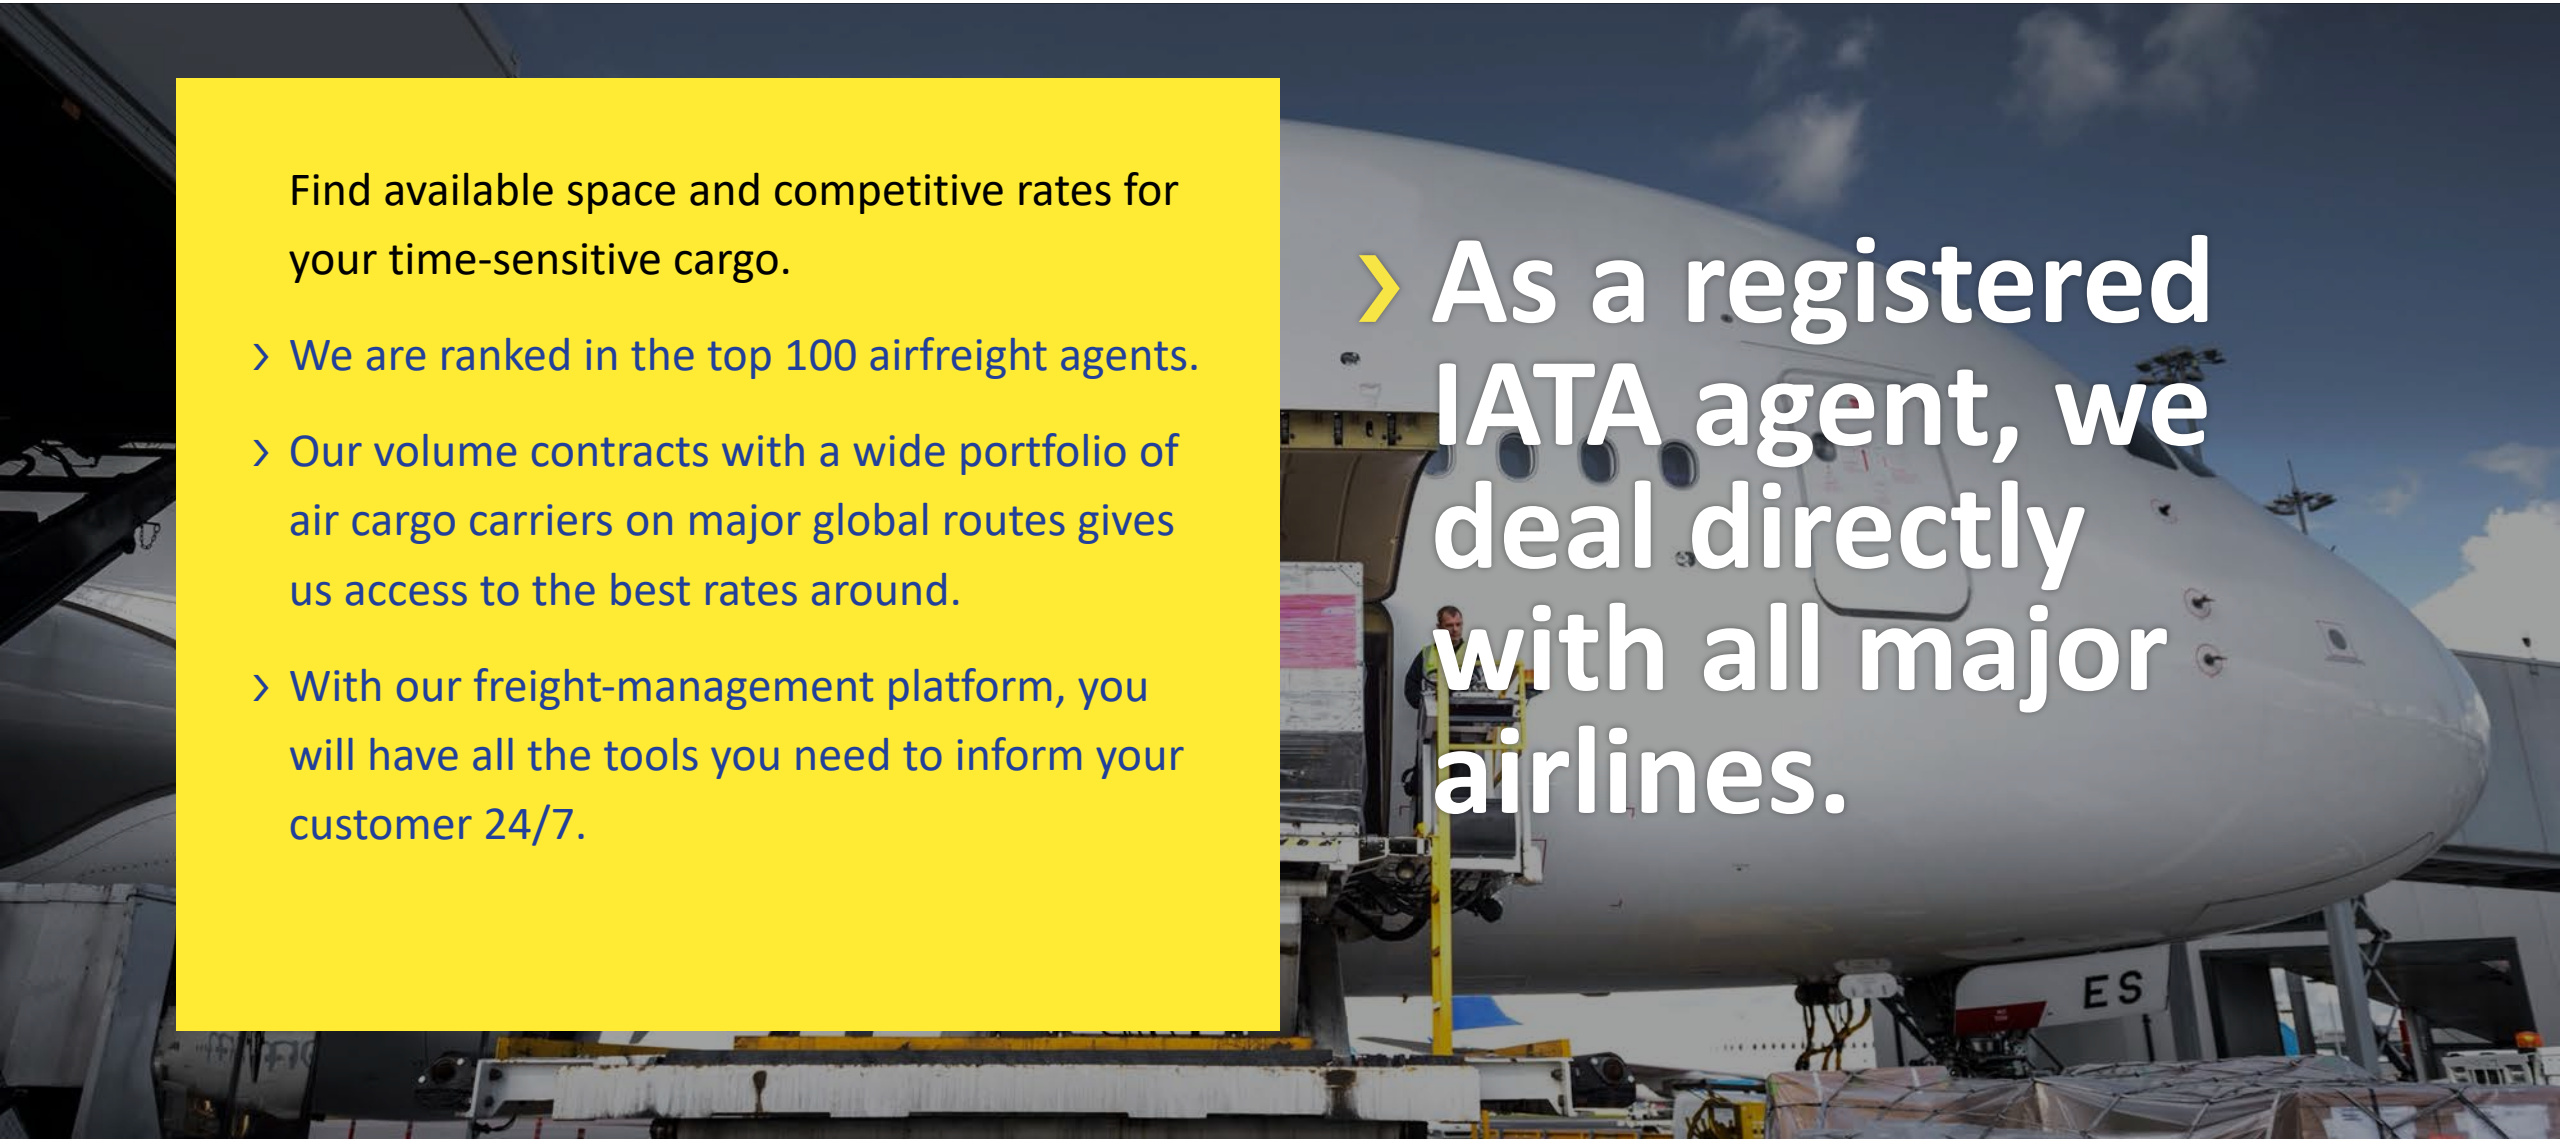

No matter the size or weight. Containers or consolidated shipments, customized solutions, breakbulk or charter arrangements. Our teams on each continent offer you consistent, high-quality 24/7 services.

- › FCL shipments and NVOCC services (FMC)-licensed. Our volume contracts allow you to benefit from:
  - › Competitive prices from reputable shipping lines.
  - › Consistent capacity and options for your shipments.
  - › Avoid delays with our customs and security certified organization (C-TPAT and AEO).

Find available space and competitive rates for your time-sensitive cargo.

- › We are ranked in the top 100 airfreight agents.
- › Our volume contracts with a wide portfolio of air cargo carriers on major global routes gives us access to the best rates around.
- › With our freight-management platform, you will have all the tools you need to inform your customer 24/7.

› As a registered IATA agent, we deal directly with all major airlines.

› Increase the efficiency of your pre- and on-carriage.

Our local offices are staffed with forwarding experts who know every detail of their hinterland. They can advise you about reliable routes and current local conditions.

- › Plan your inland transport according to your own criteria. Choose the route that is the cheapest, most reliable, quickest or easiest.
- › Reduce lead times by using the facilities and availability of different forwarders that we keep track off.
- › Take advantage of our purchasing power. Our specialists know whether certain routes are in high demand or whether there is overcapacity.

As part of our complete door-to-door services, we offer warehousing for all types of cargo. For each shipment, we will find a suitable and reliable solution.

- › We have local presence at key sites so we have warehouses available for your cargo, even at very short notice.
- › We maintain data standards on capacity, safety, security, (un)loading materials, costs and special characteristics like proper cold storage, moisture-resistance, dangerous goods facilities, etc.

› Warehousing  
for cost  
effective  
solutions.

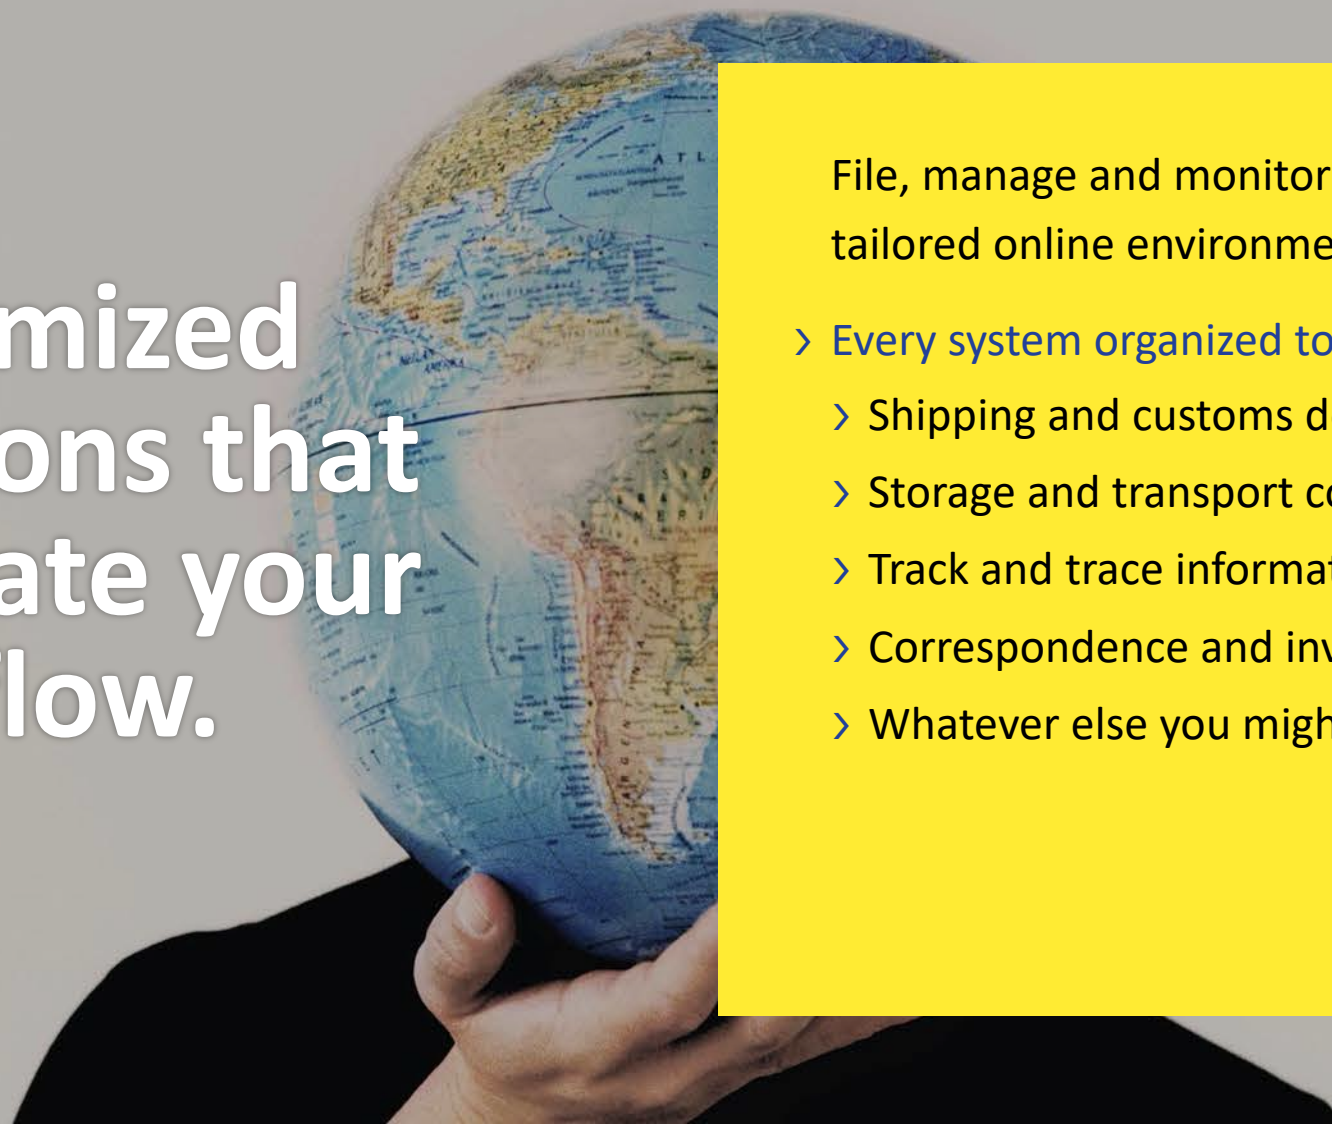

# Supply chain management

➤ For each shipment, we will find a suitable and reliable solution.

Our experts can help you with a flexible, safe and cost-effective approach for your entire logistical process.

- › Through our extensive network over the world, we can advise you on what is and is not possible locally.
- › Special handling: We can provide qualified personnel for handling your cargo on site.
- › Reverse logistics: We can provide you with solutions for returning cargo including processing tax rebates.
- › Tax analysis and solutions. We will provide you with tailored VAT solutions and deferred payment for VAT.

› Customized solutions that facilitate your workflow.

File, manage and monitor all shipments in one tailored online environment.

- › Every system organized to your needs:
  - › Shipping and customs documents.
  - › Storage and transport conditions.
  - › Track and trace information.
  - › Correspondence and invoices.
  - › Whatever else you might need to monitor.

› Access the full market potential of trading across the EU.

Obtain a significant liquidity advantage by authorizing us as your fiscal representative. We will provide you with tailored VAT solutions for your business demands and obtain deferred payment options for VAT. Appoint us as your fiscal representative and let us show you how much you can save.

As your fiscal representative we will:

- › Register your business for VAT with the tax office and make sure your company is in compliance with all applicable regulations.
- › We will take care of VAT payments at the proper moments, including: during storage, after import, export, reversed logistics, and trades between companies in different EU states.

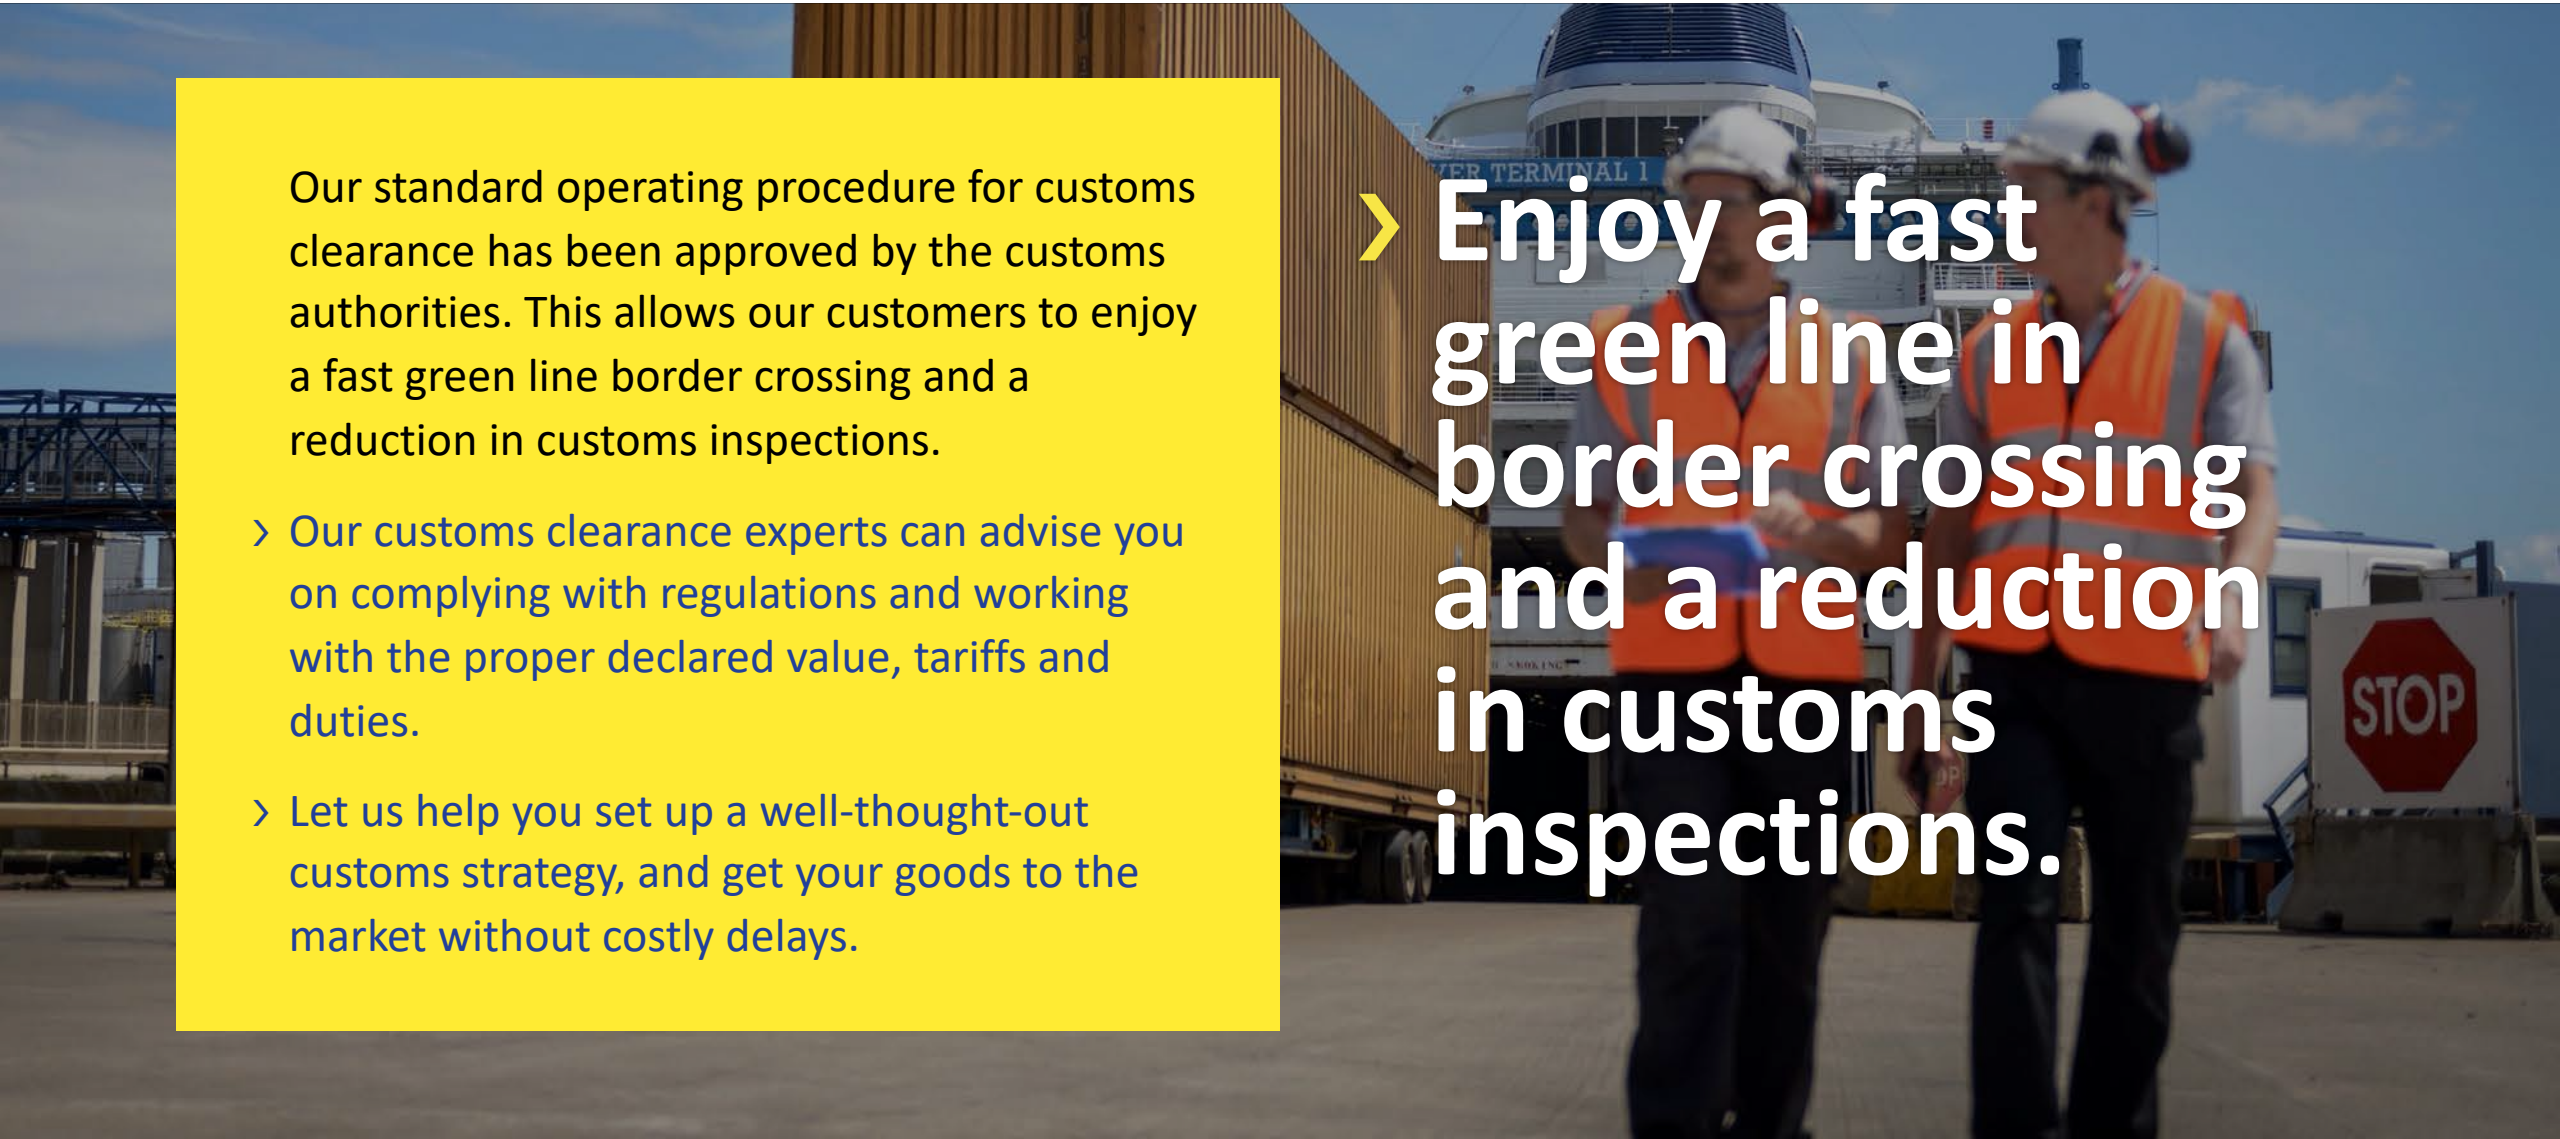

# Customs clearance. Pay the right duties and no more.

Our standard operating procedure for customs clearance has been approved by the customs authorities. This allows our customers to enjoy a fast green line border crossing and a reduction in customs inspections.

- › Our customs clearance experts can advise you on complying with regulations and working with the proper declared value, tariffs and duties.
- › Let us help you set up a well-thought-out customs strategy, and get your goods to the market without costly delays.

› **Enjoy a fast green line in border crossing and a reduction in customs inspections.**

# Cargo Insurance

At Share Logistics, our consultants offer a detailed risk analysis, customized to your individual needs. We will help you find the appropriate cover for your cargo, from origin to destination: at sea, in terminals and during local transportation.

- › Competitive insurance
- › Keep things simple one-stop-shop
- › Best service and cover
- › Realistic risk analysis

A background image showing the deck of a cargo ship. There are several stacks of blue and white shipping containers. A red crane is visible in the background, and the ship's superstructure is partially visible. The overall scene is slightly blurred, suggesting a focus on the text overlay.

› **Get peace of mind with our Cargo Insurance possibilities.**

SHARE LOGISTICS

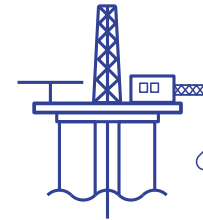

> **Industry expertise:**  
Logistics tailored to the demands  
of your cargo.

# We can handle complex logistics that demand compliance and precision.

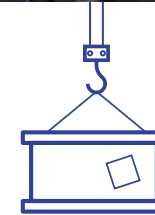

**Rely on our expertise about available facilities and local laws and regulations for the optimal shipping of your cargo.**

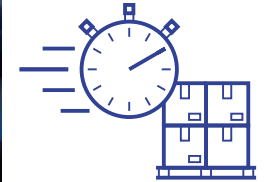

- › You can be assured of the high quality of our service from our strategically located offices on both sides of the Atlantic.
- › Our offices are in strategic locations around the world, to ensure local expertise on a worldwide scale.
- › Even if circumstances change unexpectedly, our local teams can always offer you an alternative. Are you experiencing problems clearing your cargo? You can rely on our local staff to come up with a quick solution.
